

ABOUT ME

As a seasoned Fullstack Developer, I specialize in crafting seamless web experiences that captivate and engage. My expertise spans the full spectrum of web development, from front-end finesse using HTML5, CSS, JavaScript, React.js, Next.js, and TailwindCSS, to robust back-end solutions with Java Spring Boot, Node.js, Express, and MongoDB. My design acumen, coupled with a thorough understanding of HTTP protocols and API integration, empowers me to deliver exceptional results. My excellent communication skills enable me to articulate complex technical concepts with clarity, ensuring a smooth project flow. I pride myself on being a web alchemist, adept at turning any concept into a tangible, high-performing digital reality.

WORK EXPERIENCE

CONFIDENTIAL
CLIENT (FREELANCE
PROJECT)
Dec 2023 - Jan 2024

Fullstack Developer

- Engineered a robust news platform from the ground up leveraging Next.js, TailwindCSS, and Supabase.
- Crafted an intuitive homepage featuring dynamic, real-time content updates.
- Implemented category-specific routing for streamlined user navigation.
- Integrated a customizable dark/light theme to enhance user engagement.
- Achieved cross-device responsiveness, ensuring a seamless experience on all screens.
- Developed a secure admin panel for efficient authentication and content management.

FRONTY.CH
Jul 2023 - Sep 2023

Frontend Developer

- Spearheaded the full-stack development of Fronty's website leveraging Next.js, TailwindCSS, and Supabase, delivering a robust and scalable platform.
- Implemented serverless functions to facilitate newsletter subscriptions, significantly boosting user engagement.
- Streamlined content management by utilizing Supabase for efficient blog post administration.
- Engineered responsive, dynamic user interfaces with Next.js, ensuring seamless user experiences across devices.
- Applied custom CSS and TailwindCSS for sophisticated, on-brand styling.
- Mastered state management and user interaction handling, enhancing site interactivity and performance.
- Enhanced site navigation and user flow by optimizing Next.js routing techniques.
- Achieved a high-performing, aesthetically pleasing website that surpassed initial project expectations.

JAGAAD ACADEMY
Nov 2022 - Mar 2023

React Developer

- Spearheaded the creation of a dynamic Shop Component, enhancing product navigation and cart integration for an e-commerce platform.
- Engineered an immersive Single Page Product View, elevating the customer shopping experience.
- Devised an inviting Landing Page Component to immediately engage and retain site visitors.
- Implemented a content-rich Blog Component, driving user interaction and site visit duration.
- Developed a streamlined Cart and Checkout System, simplifying the user purchase journey.
- Established a secure Billing Information Interface, prioritizing the safeguarding of customer data.
- Achieved cross-device responsiveness, ensuring a seamless user experience on all platforms.
